Easy of Use: Using the app was simplified due to the intended audience. Most users of this app are not tech savvy, so an easy-to-use app is what was needed.

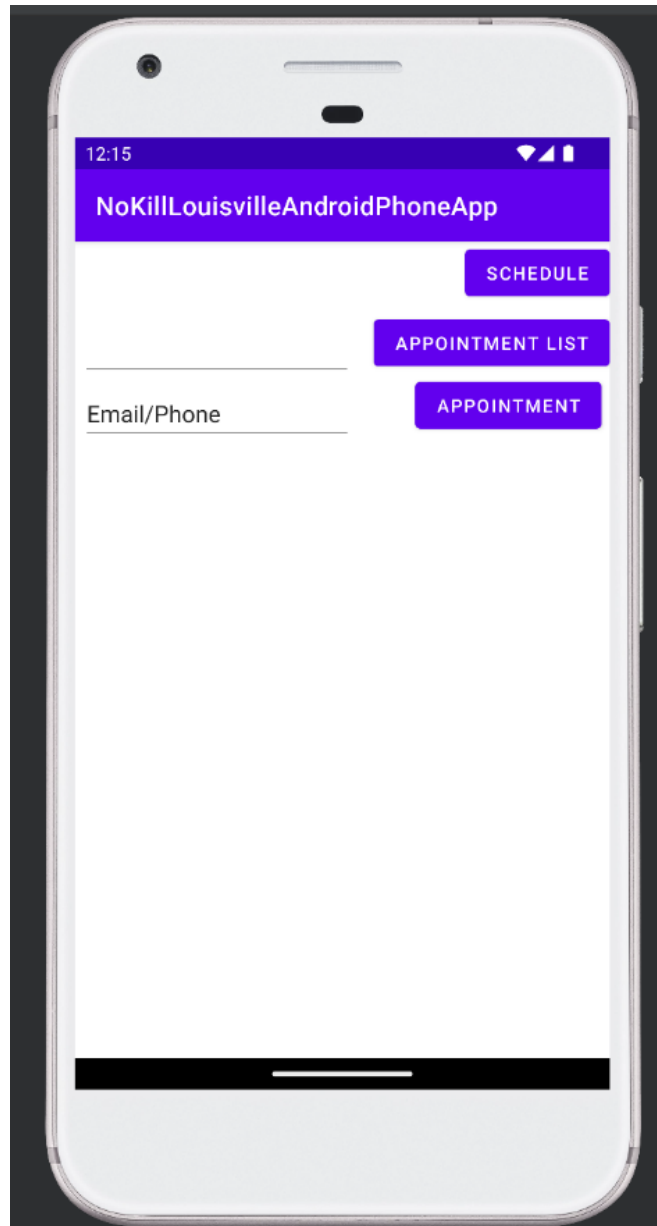

1. Login into NKL app using Google sign in with username and password.

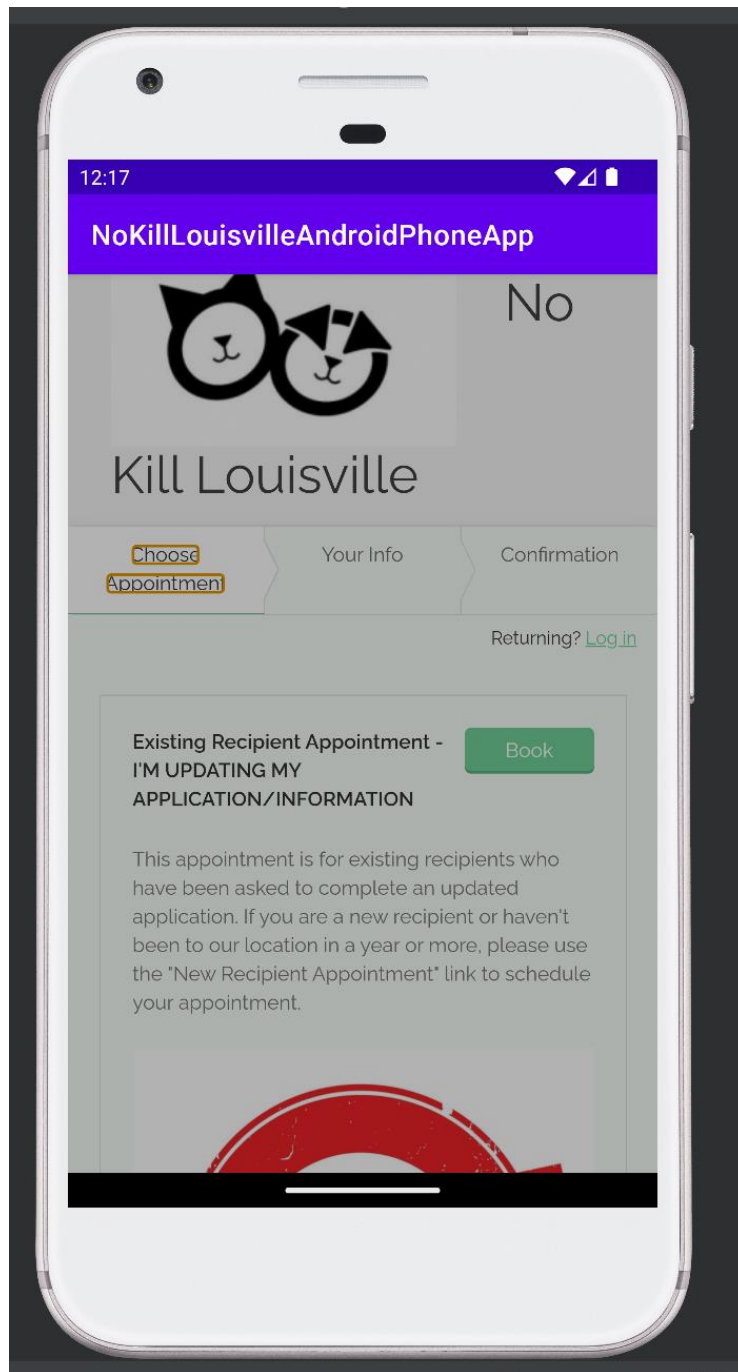

2. Confirm your appointment time.

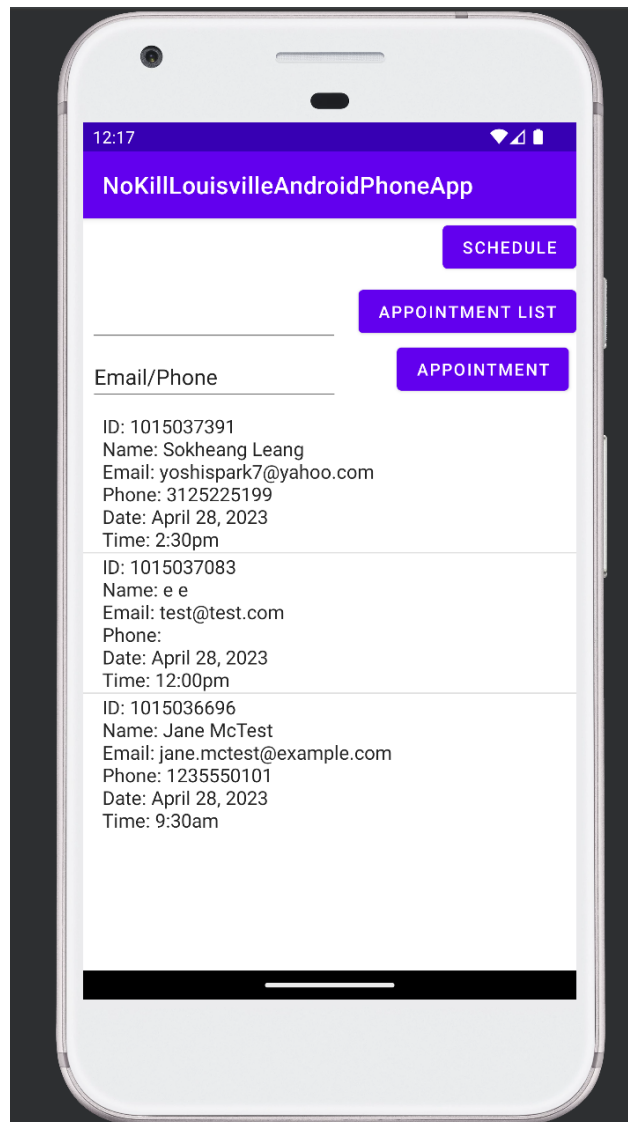

3. As a pet owner, schedule an appointment with the SCHEDULE button or through the APPOINTMENT button. Either way, appointments are submitted to database.

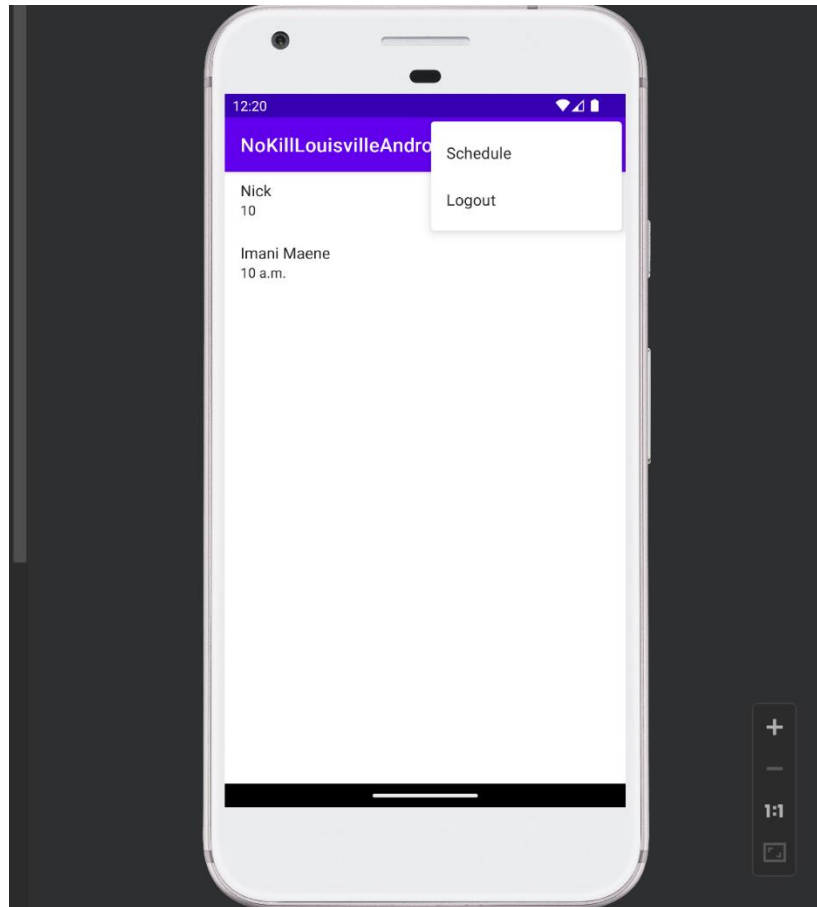

4. Directed to website link to make an appointment or upload documents.

5. As a volunteer, pull up a list of appointments.

6. When done, logout of app for security.

7. You are back on the login screen.
